**MEMORANDUM FOR: Legislative Counsel**  
Assistant Deputy Director for Plans

Attached is a blind memorandum of suggested statements which the Director may use in his meeting with Senator Eastland and the Committee. I have written the first part of the memorandum in the form of a suggested statement by the Director. The second part represents simply a series of topics which may be injected as part of the presentation.

As you will note, I have attempted to follow the tactic of:

- (1) Special requirements within the Agency for intelligence purposes;
- (2) The need for obtaining information on personnel;
- (3) Protective mechanisms within the Agency built into our system to protect the rights, privileges and privacy of the employee. In effect what we are doing without benefit of Senate 1035 is to provide a system of controls and appeals to protect the rights of the employee.

R. L. Bannerman
